

Good Day

I Sean Kelly wish to address council on the 15 th as follow up to previous presentations and directions to staff.

I was unaware that this matter was to be discussed on the 2nd of July, as I was told I could be heard on the 15 th of July.

I understand that the matter has been sent back to staff with directions of which I am unclear .

I have not been contacted in respect to the notes I received indicating that Staff to advise myself to complete the Zoning By Law Amendment Application.

I would like to know what this process entails and what cost might be.

Please note the previous time I had an issue with town on an office trailer , Staff gave me simple instructions to attached via hydro to main building , raise the trailer to be off the wheels, cover such , and indicate location on a site plan. This was done via a building permit.

Thank you for your time , and clarification.
