"Working toward a better healthcare experience for you close to home."

WWW.GREYBRUCEOHT.CA

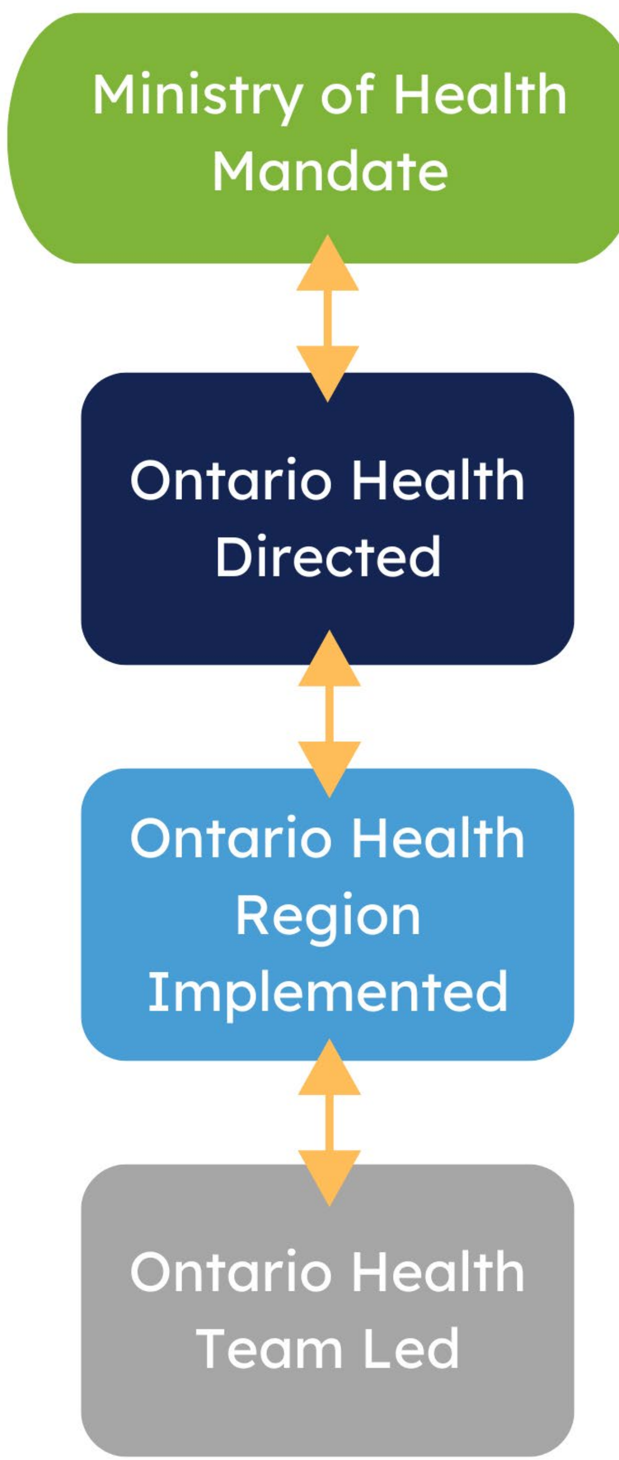
What is an OHT?

- Collaborative network of primary care providers, health service providers, community organizations, patients, families and caregivers who work together to improve local health outcomes and coordinate health and social services so patients, clients and families receive quality care they need in the right place at the right time.

What is Integrated Care?

- **Approach to healthcare that coordinates various health, community, and social services to address the diverse needs of a region's population.**

- **Key principles of integrated care include:**
  - Person Centered Care
  - Coordination of Services Across Sectors and Organizations
  - Interdisciplinary Care Teams
  - Continuity of Care
  - Digital Health Enablers
- **Benefits of integrated care include:**
  - Improved patient, client, family, and caregiver experience outcomes
  - Improved provider outcomes
  - Population health management
  - Improved health acuity
  - Overall health system cost savings



Ontario Health Teams collaborate with community partners to implement Ontario Health's priorities in alignment with the Ministry of Health's directives. Their shared mission is to empower local communities to coordinate efforts to optimize the healthcare system, improve population health and patient outcomes, and enhance the healthcare experience for both patients and providers.

Who is involved in the GBOHT?

- **Member organizations: 24** https://www.greybruceoht.ca/teamold
  - OHT Team Member organizations, through their senior leaders, use a consensus decision-making approach to collaborate on OHT priorities and system improvements.
- **Affiliate organizations: 8**
  - OHT Affiliate Participant organizations help advance OHT priorities and system improvements through their engagement at the OHT Partnership Table and on related teams.
- **Community Council**
  - Members engage in an advisory capacity and make recommendations to the Grey-Bruce OHT on matters that make an impact on providing the best patient, family, caregiver and resident experiences and outcomes.

Who is involved in the GBOHT?

- **Primary Care Network**
  - Network of Grey Bruce Primary Care Providers to provide leadership and guidance on clinical practice standards, ensuring high-quality patient care and facilitates collaboration and communication among healthcare providers to integrate services and improve health outcomes within the region.
- **Committees and Action Teams: 8+**
  - Responsible for planning, implementing, and evaluating projects and initiatives and work collaboratively to address specific health priorities, improve patient outcomes, and streamline service delivery across the healthcare system.
- **Implementation Team: 4**
  - Under the leadership of the GBOHT Director, the implementation team is responsible for operationalizing and implementing the Grey-Bruce OHT strategic workplans and supporting the Collaboration Council partners as they work towards the OHT priorities areas.

- Integrated Care through PHM and Equity Approaches
- System Navigation
- Readiness for Integrated Home Care Delivery
- Collaborative Leadership, Decision Making, and Governance
- Primary Care Engagement and Leadership
- Data and Digital

GBOHT Target Populations

The GBOHT is dedicated to enhancing integrated care and improving patient experience for four target populations.

FRAIL SENIORS

Vision: Aging well in Grey Bruce.

Visioning Outcomes:
- Seamless communication of patient information
- Strong care partners and organizations
- Connection to primary care
- Individualized system navigation
- Knowledge and education
- Sustainable and equitable funding

MENTAL HEALTH & ADDICTIONS

Vision: Care closer to home. Everyone is welcome. Come as you are.

Visioning Outcomes:
- Meet our community where they are at
- Honour lived experience throughout recovery
- Champion equitable access
- Provide proactive support at every age and stage
- Foster strong community connections

UNATTACHED PATIENTS

Vision: All Grey-Bruce community members have access to primary care.

Visioning Outcomes:
- Decreased non-urgent ED visits and improved wellness
- Improve primary care patient and provider experience
- Primary care providers are eager to come to Grey Bruce
- Wrap around care accessible for complex patients

PALLIATIVE CARE

Vision: Making time count.

Visioning Outcomes:
- Create a competency-based education
- strategy
- Be an active partner
- Deliver high-quality, evidence-based, and seamless palliative care in the right place

GBOHT Initiatives at-a-Glance
