My name is Kirsten Gabriel

, Blue Mountains.

Again my name is Kirsten, I am here to address the regulation and policy of mask mandates.

Imagine having a virus so deadly and severe that you have to have a test done in order to know if you have it.

You are basing these numbers on positive cases and not hospitalizations or deaths.

This epidemiology mathematical fraudulent module is what the numbers are based on.

The numbers are hyper inflated by false positives, and the never ending doom and gloom from the main stream media.

I was taught that fear is the fire that fuels the furnace of disease, when will this fear mongering stop.

It's terrifying to me to think... how easily this mask mandate could turn into a vaccine one.

You see I follow the vaccine narrative very closely for the last decade.

I have seen and learned about the damages that can occur after vaccination conditions that are irreversible...or a parent who has lost a child to vaccine injury.

Injuries are real and not rare.

The companies that lie and gas light these poor families are the same companies and organizations that feed you and the public this corona propaganda.

I don't wear a mask any where I go....and the public shaming that occurs is beyond humiliating.

I have been refused business...and in some occasions I couldn't enter the store.

If the mask mandate turns into a vaccine mandate you will not be allowed to go back to work...earn a pay check...renew your drivers license...or function in everyday society without proof of a vaccination.

I believe this to be spiritual and psychological warfare on the people.

The rate of suicide is the highest it has ever been in human history. More people have died from suicide than from Corona.

The national alliance of mental illness has seen a 65% increase of calls and emails since march...in other words the vast majority of health...emotional...physical...psychological financial...hardship now faced by citizens...are not due to Covid 19....they are due to ongoing catastrophic lockdowns, restrictions and policies opposed by unaccountable irrational governments.

Since when is it your job to pass Legislation on health. It is Unlawful.

History has taught us that when rights and freedoms are taken from us they do not freely give it back.

Martin Luther King Jr once stated that oppressed people can not remain oppressed forever

The yearning for freedom, eventually manifests itself.

We are 9 months into this circus that was supposed to be 2 weeks to flatten the curve

I pray to god that the people wake up and realize that we are not dealing with tempered inconvenience here but we are headed into a full on medical dictatorship.

Thankyou

Kirsten Gabriel
