How can we help you?

Good afternoon,

I am writing to ask if the court fees could please be waived for the after-school pickle ball club I am offering. I have arranged for students at Beaver Valley Community School (the school where I work) to access three courts for an hour, twice per week, for a 5 week period. The total cost for the 30 hours total would be \$339.

The students are between the ages of 10-13. Thank you for considering allowing myself and another colleague, Caitlin Roach, to allow these students to participate in this opportunity for fitness and fun without a fee. I have managed to find volunteers to help me run the program and have rounded up paddles and balls to lend to those children who do not have their own (approximately half of the 24 children). Some students have never played before and some have some experience. I am excited to see their enthusiasm for this recreational activity and believe that providing opportunities for youth to participate in free fitness opportunities is invaluable.

I am very grateful if you will consider this request. I can be reached at the school if you would like more information.
