2023 Funding Breakdown

Overview - \$3.9M

- We deliver vital conservation work across the region to enhance our watershed
- Our jurisdiction covers five major rivers, numerous smaller tributaries and 155km of shoreline
- We serve eight member municipalities
- We own and manage over 28,000 acres of land

Changes for 2023

- The proposed operating levy increase for 2023 is \$45,295 or 2.99% across eight member municipalities.
- This increase is largely driven by increasing operating costs associated with salary, OMERS, WSIB, CPP and insurance which have collectively increased by over \$130,000 from 2022 to 2023.
- The proposed capital levy increase for 2023 is \$38,700 across eight member municipalities. This increase is needed to ensure sustainability of GSCA's Capital Assets
- In 2023, GSCA's self-generated revenue is proposed to increase from \$1.24M to \$1.81M, which reduces the pressure on municipal levy
- This shift in revenue distribution to more self-generated revenue has allowed GSCA to ensure long-term corporate sustainability
