**Administration Report 6a**

The Project Manager reviewed Administration Report 6a and advised the Minister's Approval respecting the s.36 Source Protection Plan (SPP) amendments was received on November 7, 2022. Future amendments can be made through locally initiated amendments respecting new or expanding systems, new scientific or technical information, and other revisions and updates as needed. With this approval in place, the SPC is now able to implement SPP policy requirements for expanded fuel storage and handling threats, including the East Linton Events-based Area, as well as salt management plans, where applicable.

With respect to Source Protection Committee appointments, Troy Pelletier, currently the Drinking Water Superintendent for the City of Owen Sound, has been appointed the Municipal Representative for Group 1 representing Owen Sound, Georgian Bluffs, Northern Bruce Peninsula and South Bruce Peninsula.

The Project Manager advised that an update was received from the Wellington Source Water Protection (SWP) office respecting the planned Minto Pines replacement well. The existing well and the planned well will both operate for a period of time to ensure the new well meets operational requirements. Staff from the Wellington SWP office will assist with threats assessment work.

The pumping tests for the proposed Well #4 in Chesley demonstrated that recharge rates were insufficient to support a well in this location and a more suitable site will need to be determined for the new production well.

An Environmental Assessment is being undertaken respecting the proposed well project on the Teeswater fairgrounds close to the existing wellhead protection area (WHPA) requiring modeling and WHPA delineation. It is expected that the proposed well location should not significantly affect the future use of the fairgrounds.

Information was received from the Risk Management Official for Centre Wellington indicating that five Risk Management Plans are in the process of being finalized. Negotiations are reportedly going well and two of the five will eventually require corporate head office sign-offs, which may delay final risk management plan approval.
