Subject: Webform submission from: Town Clerk

I fully support the recommendation in Report CSOPS.24.063.

Given the \$10,000 cost for a community engagement process, I encourage the Town to fund the project in 2024 and then develop a plan and budget for the project to be completed in 2025.

Many projects undertaken by the Town are complicated and have a long time horizon. As you know from previous comments during 2024, there is universal support in the area for a park and recreation facility. The project at 130 King St. West is one where there is broad consensus and an opportunity for the Town and Town Council to create a big win for everybody during 2025.

I encourage you to proceed without delay.

Best regards,

Dr. David R. Lewis
