Subject: Georgian Bay Raquets Centre

Dear Council,

I fully support the construction of additional tennis courts at 130 King Street West in Thornbury to help accommodate court access in the Georgian Bay area for this popular sport. I truly believe these additional courts will:

1. help the limited access to outdoor play,
2. solve a major problem for the minimal to almost non-existent indoor court access, and
3. create a much needed dedicated facility for the region.

As more and more tennis players move to the area full time, the demand for court access will only increase. This investment will also encourage exercise and physical health, promote the sport of tennis, offer socialization and provide community engagement opportunities. I applaud this initiative and look forward to it becoming a reality!

Respectfully,
Brigitte Kopas
