> Subject: Green fees at Tomahawk

>

> Hi Paula

>

> I hope this finds you well and getting prepared for an active summer season.

>

> I was checking when Tomahawk Golf opens and found that information but was very disappointed to also learn that the formerly "free" golf for children under 16 has risen to a \$17.50 cost. I thought the purpose of youth on the golf course was to get kids outside and away from their screens. The addition of a fee for kids to play will I expect discourage youth participation which is not right.

> If you could get this turned around think a lot of folks would be very appreciative.
