

October 27, 2025

Attn: Corrina Giles / Carrie Fairley, Town Clerks

Reference: Request to Purchase Bay St. W. Road Allowance

In keeping with the Town's sustainability and climate resilience goals this request is beneficial in many ways.

1. With tree preservation this will stop erosion and assist greatly with the very poor water drainage problem in the area.
2. Keeping the area protected for wildlife habitat and maintaining a friendly and healthy environment are also important factors.
3. This request is a winning formula for both Town and residents which will address some very important issues and if granted, show strength in collaboration by bringing positive results to the community.

Thank you,

Isabel and William Thornhill
