Subject: Billboard Signage Exception brief discussion.

Gentlemen,

Would you be so kind as to permit me some face time with the both of you to advocate for my sign and the indirect benefit to the town. These processes and procedures don't allow for nuance and intent to shine through. Whether by Zoom or across a table at the pub, I'd like to state my case?

I am a big fan of the town and am actively involved in bringing positive opportunities to the community, primarily on the commercial side in which I have an extensive background / experience. (e.g. The new Orchid Location was a direct result of my efforts, I'll be leasing up the old Mac's store now their lease is up end of August, I am currently directly involved in bringing an attainable housing project to town etc. etc.) and lots of other random projects people have consulted me prior to proceeding.

Let me know what works for both of you if this is possible. 15-20 minutes should suffice.
